

## ALLERGY AWARENESS!

Here is a detailed list of all the food items we serve in our restaurant and online. Allergens are clearly displayed at the top of the page for easy reference. If a dish contains a specific allergen, a symbol will appear in the corresponding box, with its size indicating the level of presence.

We prepare our food and drinks fresh every day, using a variety of ingredients and shared equipment. While we take care to manage allergens, we cannot guarantee that our food or drinks are entirely allergen-free due to the risk of cross-contact.

Our vegan dishes are made following vegan recipes but may not be suitable for those with dairy or egg allergies. If you have any dietary requirements or concerns, please inform our team, and we'll do our best to assist you.
